1 INTRODUCTION

In accordance with Section 15088 of the State California Environmental Quality Act (CEQA) Guidelines, the City of Rocklin, as the lead agency, has reviewed the comments received on the Draft Environmental Impact Report (draft EIR) for the Rocklin 60 Project and has prepared written responses to the comments received.

The draft EIR (State Clearinghouse Number 2006112060) was received on May 6, 2009 by the State Clearinghouse, which provided a 45-day public review period ending June 19, 2009.

Chapter 2 of the Final EIR includes the written and oral comments received on the draft EIR and presents responses to significant environmental issues raised in these comments (as required by the State CEQA Guidelines Section 15132). The focus of the responses to comments is on the disposition of significant environmental issues that are raised in the comments, as specified by Section 15088(c) of the State CEQA Guidelines. Detailed responses are not provided to comments on the merits of the proposed project. When a comment is not directed to significant environmental issues, the responses indicate that the comment has been noted and that no further response is necessary.

Each comment letter has been reproduced and is followed by the responses to the comments in order of occurrence. For example, the response to the fourth comment of the second letter would be indicated as Response to Comment 2-4.

In some instances, responses to comments may warrant modification of the text of the draft EIR. In those cases, the text of the draft EIR is revised and the changes compiled in Chapter 3, Corrections and Revisions to the Draft EIR (Errata). The text deletions are shown in ~~strikeout~~ and additions are shown in underline.

This document and the draft EIR together constitute the Final EIR that is being considered by the City of Rocklin.
