

## CITY OF ROCKLIN MEMORANDUM

DATE: July 12, 2017

TO: Parks, Recreation, and Art Commission

FROM: Karen Garner, Director, Parks & Recreation

RE: Item #8 – Priority Projects Updates

---

The staff report incorrectly states that “Council also adopted funding priorities as noted above and confirmed that proceeds from the 1.1 acre parcel be applied towards those priority projects.”

Although council reviewed the priority list, the council did not make any decisions on funding specific projects. Council acknowledged that some of the projects already had full or partial funding identified. Council noted their desire to apply funding from the 1.1 acres sales proceeds to a park project or projects, but discussed reviewing potential park projects at a future council meeting before making any decisions.

Staff will continue to update Commission on their priority items and inform the Commission of any upcoming council discussions or decisions related to the proceeds of the 1.1 acre parcel sale.
