SCHEDULE H-2

COMMUNITY PARK FEE

(Resolution #99-82)

The purpose of the Community Park and Recreational Facilities Improvement Fee (Community Park Fee) is to finance community park and city-wide recreational facilities improvements to reduce the impacts of increased use of existing facilities by the expanding population caused by new development within the city. This fee shall be charged and paid upon the application for any building permit for all non-exempt new development within the City of Rocklin.

The Community Park Fee schedule shall be as follows:

<u>Type of Residential Use</u>	<u>Fee Amount</u>
Single Family Residential	\$711/dwelling unit
Multi-Family Residential	\$569/dwelling unit

Definition:

“New Development” shall mean construction of a residential structure on a legal lot which has not been the site of previous residential construction for which a building permit is required.

“Exempt Development” shall mean all other development including but not limited to, additions, alterations, remodels, and structures other than residential dwelling units.

Single Family residential shall mean all detached-individual dwelling units, manufactured housing units on individual lots, duplexes, and half-plexes.

Multi-Family residential shall mean triplexes, apartments, townhouses, and condominiums.

This fee shall be in effect on May 30, 1999 and thereafter.

SCHEDULE I

TRAFFIC FEE
(Resolution 2011-125)

A. The amount of the traffic impact fee shall be based on land use and shall be determined by the Chief Building Official in accordance with the following table:

<u>LAND USE</u>		<u>FEE</u>
Single-family Residential	1-8 units/acre	\$ 3,774/DUE
Multi-family Residential	Over 8 units/acre	\$ 2,378/DUE
Retail & Commercial Centers		\$ 6.038/sq. ft.
Office		\$ 6.604/sq. ft
Industrial		\$ 3.396/sq. ft

B. It is recognized that within these five categories of land uses, certain uses may deviate in traffic impact potential from the "average" uses. Typically, these deviations occur within the retail and recreational category. Table 5 (see below) in the Plan represents a partial list of uses which may deviate from the "average" impact. Such deviations will be considered on a case-by-case basis. Each case will be evaluated based upon traffic engineering data.

C. When an application for a building permit is filed to convert an existing development to another type of development that falls within a different land use category listed in paragraph A, above, the Chief Building Official shall determine the amount of the traffic impact fee under this paragraph. The amount of the traffic impact fee shall be the difference obtained by subtracting the traffic impact fee calculated for the existing development using the table in paragraph A from the traffic impact fee calculated for the proposed development using the table in paragraph A. If the difference is 0 or a negative number, no impact fee shall be owing.

HIGHWAY 65 INTERCHANGE IMPROVEMENT FEE

(Resolution 2007-01)

The Board of Directors of the "Bizz Johnson" Highway Interchange Joint Powers Authority has adopted a resolution imposing and charging an Interchange Traffic Fee on all new development within the City Limits of Rocklin, Roseville, and within affected areas of Placer County. The fee is identified as the Highway Interchange Improvement Fee.

The purpose of this fee is to finance the four interchanges located on the "Bizz Johnson" Highway to reduce the impact of increased traffic created by new development

The Highway 65 Interchange Improvement Fee is determined through a combination of factors relating to the project location and the type of development.

The fee for a single family dwelling within the City of Rocklin varies between \$294 to \$1447 per unit, subject to location.

The City of Rocklin is divided into four (4) Highway 65 Fee Districts. Depending on the location and land use category, the fee for a typical commercial development varies widely and is as indicated on the attached schedules by district.

Because these fees are subject to change, we suggest that early in your planning process, you contact the Building Division, (916) 625-5120 to find what fee has been established for the particular use and location of your project.

¹Standard per resident for residential development and per employee for nonresidential development

²Persons per housing unit for residential units; employees per 1,000 square feet for nonresidential development

³Based on Uniform Building Code (UBC) occupancy designations, Single Family Residential (R-3) includes single family residences, second units, and individual lot town homes. Multiple Family Residential (R-1) includes apartments and airspace condominiums.

* This fee is to be coordinated with the Construction Tax (Schedule L) for applicable projects.

Coordination with existing Construction Tax

The City will continue to collect the construction tax at its current rate at the time of the building permit. The City will credit the public facilities fee owed on each development project for the amount of the construction tax paid. If the construction tax exceeds the public facilities fee, the entire remaining amount of the construction tax will still be paid.

Sometimes building permits for the same project are issued in two stages. For example, some nonresidential structures are first constructed as a building shell without interior (tenant) improvements. Later a second permit is issued for the tenant improvements. The public facilities fee will be paid on the first permit only, so the same project does not pay for its facilities impact fee twice. The construction tax will continue to be paid on all permits. If the public facilities fee exceeds the construction tax on the first permit, there will be no refund of the fee or additional credits applied against the construction tax paid on the subsequent permits for improvements to the same structure. If the size of the original structure is expanded at a later date, then the public facilities would again apply but only on the incremental increase in building square feet, with the same procedure for a credit against the construction tax.
